TROLLEY CAR HAS ARRIVED

The People Rejoice Over Arrival of First Car.
The Second Will Arrive About Tuesday.

As The Eagle is being distributed this afternoon the first of the motor cars to operate between Bryan and College will arrive over the I. and G. N. It is being brought in on Conductor Bowles train and he wired today that he would reach here with it at 5:10 this afternoon. As soon as his message came the news spread quickly over town and there is great rejoicing. The people's long dream—rapid transit between Bryan and College, is at last about to be realized, and it is enough to cause them to rejoice.

Officials of the road say the car will be unloaded as soon as it arrives and the work of making whatever adjustments are necessary will be begun so as to have it ready to put into commission tomorrow morning. They will

run tomorrow if it is possible to get ready by that time.

Another car is expected to arrive not later than Tuesday, and may be here on Monday, which will give ample time to have everything running smoothly before commencement.

Mr. Gammill received a wire from the factory this morning stating that an expert left there today for Bryan to help inaugurate the service. He will reach here about Monday night and will remain two weeks.

If the car that came today can be gotten ready for service by morning, it is safe to say that it will do a land office business tomorrow. Everybody in Bryan and at College have expressed themselves as wishing to take a ride on the first car possible. It is safe to say the trolley line will be in the very center of the spotlight for the next few days at least.

APPOINTED TO ANNAPOLIS.

Cadet Montgomery of the A. and M. College Named by Congressman Hardy.

College Station, Texas, May 28.—Fred Lawrence Montgomery, of Navarro county, a student of the Agricultural and Mechanical College of Texas, taking the civil engineering course has been appointed by Hon. Rufus Hardy, member of congress from the Sixth district of Texas to the United States Naval Academy at Annapolis.

Contrary to the usual congressional custom, there was no politics in the appointment of Cadet Montgomery. Mr. Hardy did not look around for a friendly supporter on whom to confer the honor. When he was advised there was a vacancy in the corps at Annapolis which he could fill by appointment, he telegraphed to Col. R. T. Milner, president of the Agricultural and Mechanical college, asking that the president select a student of the college whose home is in the Sixth district, whom he could recommend. Col. Milner conferred with Capt. Andrew Moses, commandant of cadets, and Montgomery was decided upon. Col. Milner so telegraphed Mr. Hardy and the young man was at once named.

This action of the congressman shows the high regard in which the A. and M. College of Texas is held.

He knows of the course of instruction here and he knows how the young men stand who are students at the institution. Young Montgomery is a fine student. He was good in his school work, was proficient in military discipline, and by his own work in the college had attracted the attention of the commandant of cadets.

This is the second student to leave the college this year to start a career in the fighting branch of the government. John William Butts, of Cisco, who would have graduated in June, accepted an appointment to the United States Military Academy at West Point a few months ago. There are several who will graduate in June who will take an examination for immediate appointment to the army with the grade of second lieutenant.

INSTALLING BANK FIXTURES.

The new fixtures for the First State Bank and Trust Company have been here for several days and two gentlemen arrived last night from the factory at Jackson, Tennessee, and began this morning the work of installing the same. It will require some days to complete the work of installing the fixtures and as soon as completed the bank will move into their new building. The fixtures are elegant and a more extended notice of them will appear when they are in position.

Shreveport	40	17	23	.425
Oklahoma City	39	16	23	.410
Waco	37	10	27	.270

MANY COMING TO COMMENCEMENT.

Indications Point to Largest Gathering in History of The A. and M. College.

College Station, Texas, May 28.—From replies received every day by A. Mitchell, College Station, secretary of the Alumni association, it is the indication that the home coming this year at the A. and M. College of Texas will be marked by a very large attendance. Former students from every section of the state are advising Mr. Mitchell that they will be here. One former student writes "I was fired out of College before I finished my course but I still have a love for the old school. I have done well in business life, and I am coming back to see the old place again in June."

The enthusiasm of the former students is aroused and there will be a big commencement gathering.
